

## DIGITAL TRANSFORMATION SOLUTIONS

Using our Award Winning Lean, Change Management, Technology Adoption and Project Implementation experience PACE is proud to Partner with mining industry leaders and vendors to implement the ideal turn key technology solution that is uniquely designed for your mine. We call this service Digital Transformation Solutions, where we transform any of your mining operations into the digital age. From Autonomous Vehicles to a digital underground we are your innovation hub helping you design solutions that perfectly fit your unique organizational, operational and cultural needs.

With decades of mining technology implementation experience PACE is proud to offer you Digital Transformation Solutions.

## TESTIMONIALS

"We are very proud to partner with PACE who has provided us with the structure and methods to stay ahead of the competition and keep delivering excellent value to our customers."

**- Ed Lusk, Atlas Copco**

"PACE Inc. has been an instrumental part of Barrick Gold's Digital Implementation Strategy at the Hemlo Operations. PACE is able to clearly demonstrate and articulate the value they add and its relation to ROI around change; particularly with the implementation of new technology. I highly recommend making them a part of your digital implementation project team."

**- Sean McCarthy, Barrick Gold**
