

# REMOTE WORKERS

Individual and Technology Assessment

Has your organization discovered that Working Remotely isn't as simple and straightforward as you thought it would be?

With the sudden onset of the Covid pandemic, many organizations have been forced to move to a Remote Worker model. The sudden and unplanned nature of this transition left a lot of people and organizations struggling to work effectively in this new virtual environment. Now is the time to get your people and processes back on track so your staff can work and collaborate effectively, and your organization can thrive in this new digital workspace.

PACE is here to help you assess your current Remote Worker strategy and deployment and regroup so that your transition to Remote Work can be effective and successful for your organization, your employees, and your customers.

## HOW CAN PACE HELP YOU?

### YOUR VISION

We will help you define your Remote Work Program by conducting a Vision Alignment (identify your vision, objectives and metrics)

### YOUR TECHNOLOGY

We will assess your current state (people, culture, technology, communications) and identify potential gaps

### YOUR CULTURE

We will build a Roadmap to address the gaps identified during the assessments

### YOUR RESULTS

We will provide you with an Implementation Project Plan and will assist with Project Execution
